

# Compact Drip Torch

A revolution in weight and operability

# Compact Drip Torch

A revolution in weight and operability

The all-new Vallfirest Compact Drip Torch has been designed to offer better impact resistance, performance and operability. It's an extremely light and easy-to-carry torch for indirect attack and parallel operations such as backburns, burnouts, escape fires, hazard-reduction burning and the creation of safe zones.

## The all-new 360 wick - patent pending -

A new design for better nozzle protection and a constant flame despite changes in wind direction for perfect operations at all times.

## The most compact, resistant and light 1L torch

Made of high-density polyethylene (HDPE) it can withstand blows without getting dented.

The threaded cover is made of 7075 aluminum with an anodized finish, which means it's highly durable and ready for compact transportation and quick assembly for use.

## Safer operation

A longer fuel tank and wick to increase the safety distance between firefighters and fire.

## Built-in fuel level

The first torch with a fuel level indicator.

### Technical specifications

<b>Material</b>	High-density polyethylene (HDPE) and anodized 7075 aluminum
<b>Weight not including handle</b>	384 g
<b>Weight including handle</b>	534 g
<b>Diameter</b>	8 cm
<b>Height during transport</b>	29.5 cm (closed)
<b>Height during use</b>	49.5 cm (in use)
<b>Fuel</b>	Blend for use: 3/4 diesel + 1/4 gasoline
<b>Marking</b>	ADR fuel transport

## 1 Parts

The wick may be stored in the inside of the bottle with the dual-cover system. The flow regulation valve provides greater control when maneuvering. The fuel pipe is comprised of an anti-return system to make the torch a safer tool.

- 1 HDPE fuel tank.
- 2 Metal detachable handle.
- 3 360° fuse system - patent pending -
- 4 Anti-return system.
- 5 Flow regulation valve and anti-drip chain close in anodized 7075 aluminum.
- 6 Air regulation valve.
- 7 NBR fuel-resistant seals.
- 8 Quick-view level indicator.

## 2 Safety

Spout with an anti-return system to prevent internal deflagration. Close valve for transport and fuel regulator with an anti-drip chain.

Tank with ADR marking for fuel transport.

This product may only be used by qualified personnel. The use of PPE is mandatory.

## 3 Easy to move

Small size ideal for helitransported squads and control and analysis vehicles.

**Can be carried on a belt or in a backpack.**

**Support for vehicles.**

**Nylon bag** for 6 drip torches with adjustable belts on the inside to prevent sudden movements.
